All of the constituents of this adhesive product are listed on the TSCA inventory of chemical substances maintained by the US EPA, or are exempt from that listing. Indicates this chemical is subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (40CFR372)

indicates that this chemical is found on Proposition 65's List of chemicals known to the State of California to cause cancer or reproductive toxicity.

SECTION 4 - FIRST AID MEASURES

Contact with eyes: Flush eyes immediately with plenty of water for 15 minutes and seek medical advice immediately.

Skin contact: Wash skin with soap and water. If irritation develops, get medical attention Remove to fresh air. If breathing is stopped, give artificial respiration. If breathing is difficult, give oxygen. Seek medical advice Inhalation:

Do not induce vomiting. Seek medical advice immediately. Ingestion:

Likely Routes of Exposure: Inhalation, Eye and Skin Contact

Acute symptoms and effects:

Excessive overexposure may cause irritation to nose and throat. In confined areas, vapor can accumulate and can cause unconsciousness. Inhalation: Eye Contact: May cause moderate eye irritation which may be slow to heal. May cause slight corneal injury. Vapor may cause mild discomfort and redness.

Skin Contact: Prolonged contact may cause skin burns. May cause more severe response on covered skin (under clothing and gloves)

Ingestion: Low toxicity if small amount swallowed, however larger amounts may cause injury. Aspiration into the lungs may occur during ingestion or vomiting.

Chronic (long-term) effects: IARC Classification 2B (Methylene Chloride)

SECTION 5 - FIREFIGHTING MEASURES

NFPA HMIS 0-Minimal Suitable Extinguishing Media: Water fog or fine spray, carbon dioxide, dry chemical or foam. Unsuitable Extinguishing Media: Dry chemical powder. Health 1-Slight Exposure Hazards: Inhalation and dermal contact. Flammability 0 0 2-Moderate Reactivity Combustion Products: Oxides of carbon, hydrogen chloride. 0 0 3-Serious Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing 4-Severe Protection for Firefighters:

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Clear all personnel from area. Do not breathe vapors. Ventilate area of leak or spill. Wear protective equipment positive pressure self contained or air supplied breathing apparatus. Follow confined space entry procedures.

Environmental Precautions: Prevent product or liquids contaminated with product from entering sewers, drains, soil or open water course.

Mop or soak up immediately. Place in properly labeled metal containers. Methods for Cleaning up: Materials not to be used for clean up: Zinc, Aluminum or plastic containers

SECTION 7 - HANDLING AND STORAGE

Handling: Avoid breathing of vapor, avoid contact with eyes, skin and clothing. Do not swallow. Use with adequate ventilation.

Do not cut, drill, grind, weld or perform similar operations on or near empty containers. Vapors of this product are heavier than air and will collect in low areas.

Do not eat, drink or smoke while handling.

Store in a dry place. Keep container tightly closed when not in use. Store below 80°F (27°C).

Follow all precautionary information on container label, product bulletins and solvent bonding literature

SECTION 8 - PRECAUTIONS TO CONTROL EXPOSURE / PERSONAL PROTECTION

EXPOSURE LIMITS:	Component	ACGIH 8 hr-TLV	ACGIH 15 min-STEL	OSHA 8 hr-PEL	OSHA 15 Min-STEL	OSHA PEL-Ceiling	CAL/OSHA 8 Hr-PEL	CAL/OSHA Ceiling	CAL/OSHA 15 Min-STEL
	Methylene Chloride	50 ppm	N/E	25 ppm	125 ppm	N/E	N/E	N/E	N/E
	Trichloroethylene	50 ppm	100 ppm	100 ppm	N/E	200 ppm	25 ppm	300 ppm	100 ppm
	Methyl Methacrylate Monomer	50 ppm	100 ppm	100 ppm	N/E	N/E	50 ppm	100 ppm	N/E

Engineering Controls: Provide general and/or local exhaust ventilation to control airborne levels below he exposure guidelines.

Lethal concentrations may exist in areas with poor ventilation Monitoring: Maintain breathing zone airborne concentrations below exposure limits

Personal Protective Equipment (PPE):

Eye Protection: Use chemical goggles. If exposure causes eye discomfort, use a full-face respirator.

Prevent contact with the skin as much as possible. Use protective clothing chemically resistant to this material. Remove contaminated clothing immediately, wash skin area with soap and water and launder clothing before reuse or dispose of properly. Skin Protection:

Respiratory Protection: Prevent inhalation of the solvents. Use in a well-ventilated room. Open doors and/or windows to ensure airflow and air changes. Use local exhaust ventilation to remove airborne contaminants from employee breathing zone and to keep contaminants below levels listed above

With normal use, the Exposure Limit Value will not usually be reached. When limits approached, use respiratory protection equipment.
