

# ColorJoint Laminate Worktop Joint Sealant

## Key Features:

ColorJoint is a new colour matched adhesive and sealant for laminate worktop joints.

ColorJoint is the latest generation, high performance toughened polymer technology. It is a super strength formula, tougher and faster curing. It has excellent bond strength and is perfect for installing laminate worktops.

## It Performs Four Tasks:

- It bonds the joint together
- It seals the joint against water and domestic detergents
- It is exactly colour matched to the worktop so making the finished joint almost invisible.
- A tight joint means there is no place for dirt and germs to collect and so keeps the worktop hygienically clean.

ColorJoint colours have been specifically developed to match the most popular laminate brands. There are 10 standard colours in stock and

special batches of any colour can be made to order.

ColorJoint is also an excellent gap or joint filler and it has very little shrinkage and is UV stable.

It is fast cure even at low temperatures, this means worktops are ready to use in 15 hours.

Easy to apply in all conditions and even bonds to damp surfaces.

ColorJoint is environmentally friendly. It contains no solvents or other hazardous materials. This means there is no smell or fumes.

ColorJoint has a 12 month shelf life.

## Directions for Use:

Ensure area to be sealed is dry and free from dust and grease.

One 20g tube of ColorJoint is sufficient to seal a standard 600mm worktop joint.

Using the applicator to guide start from the rear bolt slot and apply a constant bead of ColorJoint along the underside, up the back edge, along the top edge and round to the front

bolt slot only. Ensure the front and back edges are sealed. Quickly close the joint and allow excess sealant to squeeze out of the joint, align the two sides and tighten the bolts fully. The excess sealant should be removed with the scraper side of the applicator.

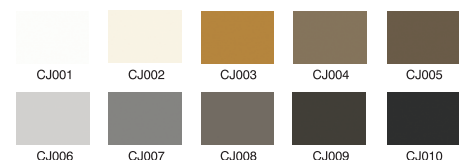

Allow to cure for 15 hours before use.

## Retailer Opportunity:

There is no other product on the market like ColorJoint and it can be sold with all worktop installations.

Make the switch to the latest coloured, high performance, lowest VOC adhesive and sealant on the market. Manufactured by the colour specialists.

## 10 standard colours in stock – special colours can be made to order
