SilSo APPLICATIONS Silicone Solutions that make your life easier.

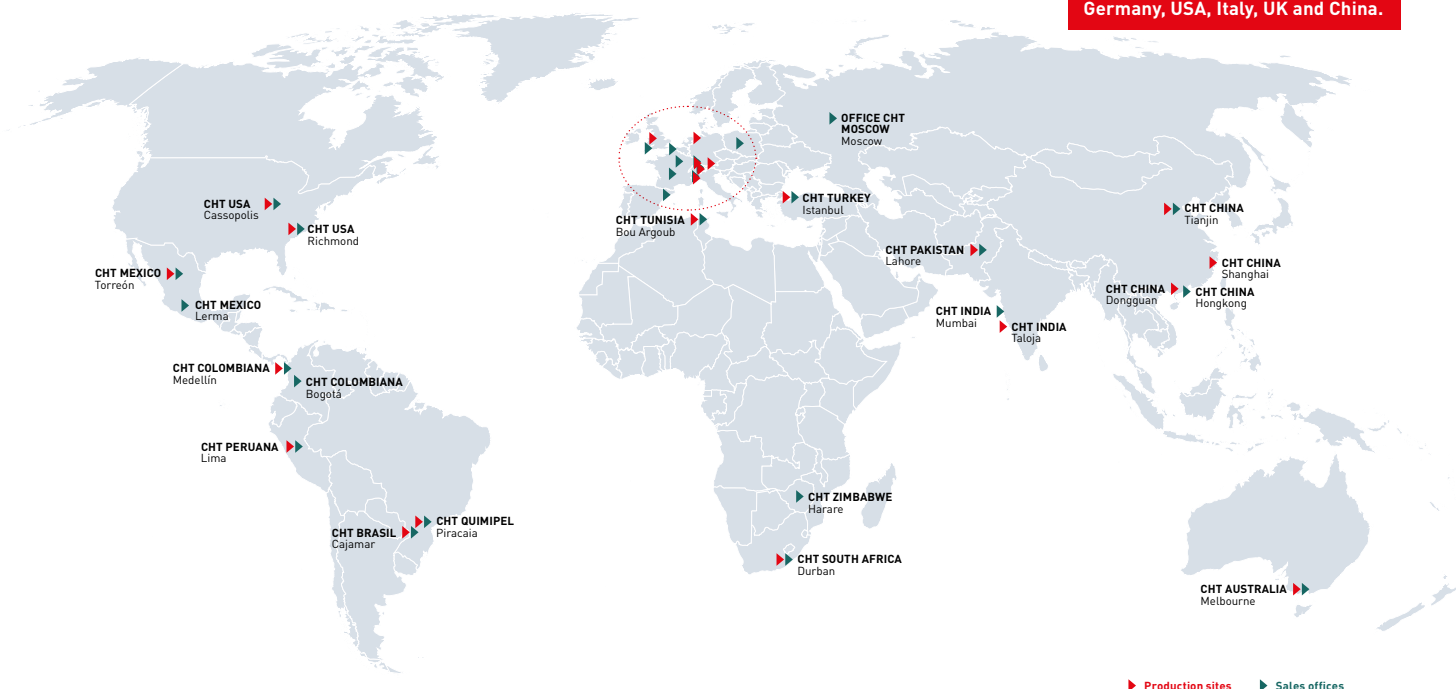

Our know-how and technology offers added value to your business

With its versatile range of silicone elastomers (silicone rubbers) the CHT Group has been a long-standing partner and supplier for numerous industrial core segments. The basis and driver of innovation are top modern laboratory and production facilities for the development and manufacture of silicone elastomers at numerous locations all over the world. Silicone elastomer systems stand out for their extraordinary chemical and thermal stabilities, physiological harmlessness, environmental compatibility and excellent electrical properties. Our product range focuses on RTV (Room Temperature Vulcanizing) components as well as on LSR (Liquid Silicone Rubbers) which are excellently suited for the following applications:

SAFETY AND RELIABILITY WITH A STRONG GLOBAL PARTNER

7 silicone production sites in Germany, USA, Italy, UK and China.

We give you sound advice

- Detailed expert answers that suit your needs
- Expertise in all fields of silicone-based applications
- Providing high standards in technical service and sales support
- Individual and competent – just for you
