# WHAT IS TENSORGRIP®?

**Global leader in canister adhesive systems. Passionately creating success with simplified innovative technology.**

As far as spray adhesives are concerned, no other product can compare to the strength, tenacity and reliability of Tensorgrip®. Available in canisters as well as aerosols, our innovative formula breaks down barriers presented by time-consuming traditional bonding methods with ease.

**Four major things really set Tensorgrip® apart from all other adhesive brands:**

## **Unique range of adhesives**

From 100% non-flammable contact adhesives that outperform without compromising time advantages (see P302) to the world's first cross-linking contacts that change form when cured to develop a highly resistant thermoset bond. These same adhesives are also resistant to plasticizer migration, making them safe for vinyl and rubber bonding (see P809).

## **Simplified Labeling System**

To make adhesives easier to choose and identify, the gurus of Tensor developed a simple icon-based system of identification so that there's no reason to be using the wrong adhesive!

## **CO-REZ Technology**

Select Tensorgrip® products feature advanced CO-REZ Technology, which is an exceptional formulation incorporating a highly engineered resin and gas matrix. MORE GLUE—LESS GAS! The result: greater coverage from the same container.

## **Zero-FLAM Technology**

Select Tensorgrip® products feature an easy way to prevent any canister related mishaps... ZERO-FLAM technology. Thanks to its unique propellant system of non-flammable gases, you'll benefit from a 100% non-flammable canister adhesive system. In addition, you'll love the unparalleled spray performance, which is only available by utilizing the exceptional ZERO-FLAM technology. ZERO-FLAM technology has been independently tested and proven to exceed all industry standards for flame projection control performance.

# OUR INDUSTRIAL ADHESIVE RANGE

Aspiring to be your "Most Valued Supplier"

## WHAT SIZES OF TENSORGRIP® ARE AVAILABLE?

### Aerosol - 650 ML (22 FL OZ)

This convenient aerosol is great for small applications or for less-frequent users. Small but sticks all the same!

### Mini - 7L

The Mini is a portable, and yet great for tight spaces. It contains more adhesive than an aerosol so you'll be more efficient with fewer changeovers.

### Large - 22L

Our most popular adhesive container, the 22L canister is great for production where ultimate portability is required.

### Intermediate - 108L

The 108L canister is portable, but geared toward use in larger-scale production environments.

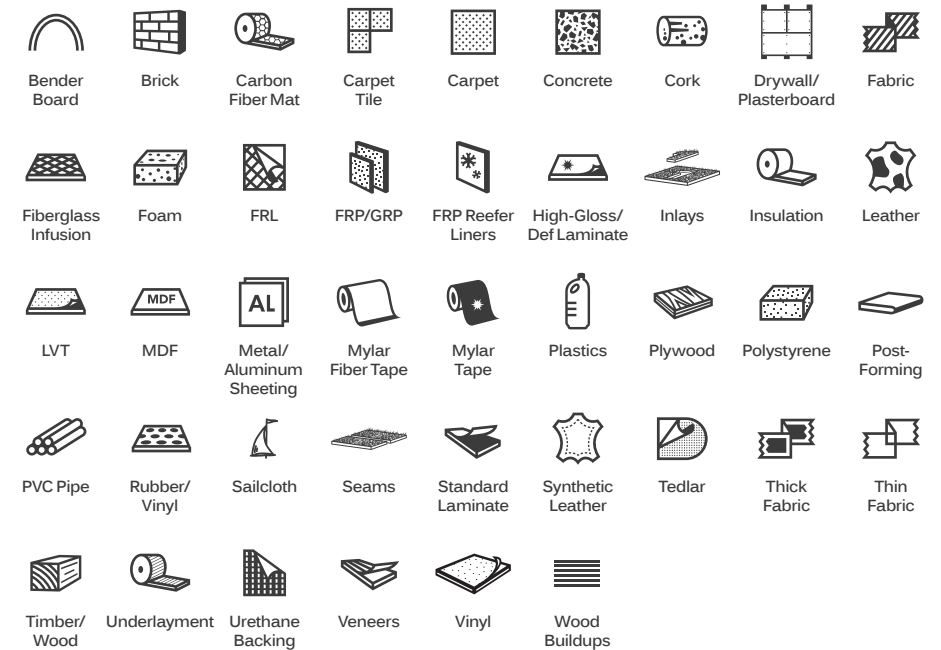

### Jumbo - 216L

The largest in our range, the 216L canister is suitable for the largest-scale production applications. Multi-user friendly.

## THE TENSOR LABEL SYSTEM

Choosing the product that is right for the job should never have to be a hassle, so we at Tensor have developed a new labeling system to help make your choosing of the correct adhesive as quick and easy as possible! Our aerosol and canister labels have been color coded to fit specifically into the market of which they apply to most and now feature icons that help you define which applications the adhesive is best suited for.

## Polyurethane Bead Adhesive

Tensorgrip® P120 is a 100% solids, polyurethane bead adhesive with excellent temperature and chemical resistance.

### Advantages:

- Ultra-Fast application
- Single component; moisture cure
- Fast dry and quick tack
- Liquid-resistant
- Excellent high coverage

### Application Tools:

- Hoses: M130
- Application Gun: M160

TDS / SDS

### Substrates:

Drywall/  
Plasterboard

Plywood

Polystyrene

## Polyurethane Foam Adhesive

Tensorgrip® P125 is a high solids, polyurethane bead adhesive with good temperature and chemical resistance.

### Advantages:

- Single-component
- Moisture cure
- Quick and easy application
- Liquid-resistant
- Cost effective and time saving
- VOC free
- Quick handling time
- Ultra-fast application
- Repositionable
- Excellent high coverage
- Five minute open time
- Full strength achieved in 24 hours
- Fast dry and quick tack
- No ODS (Ozone Depleting Substances)
- Qualifies for LEED®-NC & CI EQ Credit 4.4: laminating adhesives shall contain no urea formaldehyde resins

### Application Tools:

- Hoses: M130
- Application Gun: M160

## High Temp General Purpose Contact Adhesive

Tensorgrip® P300 is a standard non-flammable solvent contact adhesive with good temperature resistance. Designed to deliver a smooth and strong bond in nearly any application.

### Advantages:

- Excellent green strength
- Fast dry, high tack, and long open time
- Excellent high coverage

### Application Tools:

- Hoses: M130
- Application Gun: M120
- Recommended Tip: UniJet® 9501B

# P302

## Non-Flam High-Temp Contact Adhesive

Tensorgrip® P302 is alone in its class. Leading Zero-Flam Technology has allowed Tensorgrip® to develop a completely non-flammable adhesive with the best bonding properties on the market. Tensorgrip® P302 is designed to be a versatile, safe and reliable adhesive. With superior strength, yet an ever-soft bondline, it's the perfect match for foam, insulation, laminate and more.

### Advantages:

- Non-flammable
- VOC free
- Excellent high coverage
- 80% of final strength achieved immediately
- Full strength achieved in 24 hours
- Fast dry, high tack, and long open time

### Application Tools:

- Hoses: M180
- Application Gun: M120
- Recommended Tip: M201

# P305

## Non-Flam Pressure Sensitive Adhesive

Tensorgrip® P305 is a powerful pressure sensitive adhesive, offering fast dry and high tack while still allowing repositionability and retaining lasting tackiness.

### Advantages:

- 100% Non-flammable
- Most aggressive of our PSA line
- VOC free
- Fast dry, high tack, and long open time
- Repositionable
- Excellent green strength
- No ODS (Ozone Depleting Substances)

### Application Tools:

- Hoses: M180
- Application Gun: M120
- Recommended Tip: UniJet® 11001B

# P307

## CA Compliant Low VOC Contact Adhesive

Tensorgrip® P307 is a multi-purpose contact adhesive that effectively bonds a vast range of substrates while maintaining compliance with stringent California VOC requirements (SCAQMD Rule 1168). Tensorgrip® P307 is aggressive and versatile, lending itself to bonding flexible and porous materials with ease.

### Advantages:

- Excellent bonding to porous substrates
- Aggressive; adheres to nearly any surface
- High-strength, long-term bond
- Strong initial bond
- Low VOC California Compliant (SCAQMD Rule 1168)

### Application Tools:

- Hoses: M130
- Application Gun: M120
- Recommended Tip: UniJet® 6501

# P308

## High Tack CA Compliant Contact Adhesive

Tensorgrip® P308 is a multi-purpose contact adhesive that effectively bonds a vast range of substrates while maintaining compliance with stringent California VOC requirements (SCAQMD Rule 1168).

### Advantages:

- High tack version of CA compliant contact adhesive
- High build is effective on porous or less smooth surfaces
- Aggressive High-Strength, Permanent Bond

### Application Tools:

- Hoses: M130
- Application Guns: M120 or M125
- Recommended Tip: UniJet® 9501

# P309

## Non-Flam Pressure Sensitive Adhesive

Tensorgrip® P309 is a powerful pressure sensitive adhesive, offering fast dry and high tack while still allowing repositionability and long lasting tack.

### Advantages:

- 100% Non-flammable
- VOC free
- Wide spray is good for large production
- Fast dry, high tack, and long open time
- 80% of final strength achieved immediately
- Very aggressive PSA
- Repositionable
- No ODS (Ozone Depleting Substances)

### Application Tools:

- Hoses: M180
- Application Gun: M120
- Recommended Tip: UniJet® 9501B

TDS / SDS

### Substrates:

Plywood Foam Insulation

### Properties:

### Available Sizes:

### Available Colors:

Blue Clear

# P310

## Pressure Sensitive Spray Contact Adhesive

Tensorgrip® P310 is a high solids, pressure sensitive adhesive with fast dry, long tack and high peel strength, designed to bond to a vast range of substrates and maintain tackiness.

### Advantages:

- Aggressive tack adhesive
- Fast coverage of large areas
- Long open assembly time
- Repositionable
- One or two sided application
- 80% of final strength achieved immediately
- Full strength achieved in 24 hours
- Bonds polyethylene and other films
- Resistant to high temperatures when applied two-sided

### Application Tools:

- Hoses: M130
- Application Gun: M120
- Recommended Tip: UniJet® 6501

## P311

### Non-Flam Pressure Sensitive Adhesive

Tensorgrip® P311 is a medium pressure-sensitive adhesive, offering fast dry and excellent repositionability. This adhesive is the answer for temporary or permanent bonds.

#### Advantages:

- Non-flammable
- Low VOC
- Aggressive tack adhesive
- Fast coverage of large areas
- Long open assembly time
- Repositionable
- One or two sided application
- 80% of final strength achieved immediately
- Full strength achieved in 24 hours
- Bonds polyethylene and other films
- Resistant to high temperatures when applied two-sided

#### Application Tools:

- Hoses: M180
- Application Gun: M120
- Recommended Tip: UniJet® 400050

TDS / SDS

#### Substrates:

#### Properties:

#### Available Sizes:

#### Available Colors:

Blue Clear

## P313

### Low VOC Pebble Spray Contact Adhesive

Tensorgrip® P313 is a low VOC, contact adhesive; designed to deliver superior smoothness and allow post-forming while remaining within California VOC regulations. Formulated with CO-REZ Technology, which is exceptional formulation incorporating a highly engineered resin and gas matrix. The result: Greater Coverage from Less Canister Weight.

#### Advantages:

- Lower profile spray reduces telegraphing
- Fast drying
- Low VOC California Compliant (SCAQMD Rule 1168)
- No ODS (Ozone Depleting Substances)
- 80% of final strength immediately

#### Application Tools:

- Hoses: M130
- Application Gun: M120
- Recommended Tip: UniJet® 4001B

# P321

## Polystyrene Foam Contact Adhesive

Tensorgrip® P321, unlike most contact adhesives, is safe for polystyrene and still keeps the typical strength and characteristic of the Tensor brand.

Tensorgrip® P321 achieves an excellent bond to polystyrene as well many porous or difficult substrates.

### Advantages:

- Bonds polystyrene to most substrates
- Will not attack polystyrene
- Very fast dry and long open time
- Excellent high coverage
- Moisture and weather resistant

### Application Tools:

- Hoses: M130
- Application Gun: M120
- Recommended Tip: UniJet® 9501

TDS / SDS

### Substrates:

Polystyrene

### Properties:

Web Spray

Heat Resistance up to 200F/94C

### Available Sizes:

### Available Colors:

# P322

## Fast Dry Pressure Sensitive Adhesive

Tensorgrip® P322 is an aggressive and fast drying pressure sensitive adhesive designed to bond to a vast range of substrates and maintain tackiness.

Tensorgrip® P322 will not attack polystyrene. Perfect for bonding porous surfaces used for upholstery, geotextiles and more.

### Advantages:

- Very fast drying
- Long lasting high tack (pressure sensitive)
- Moisture and weather-resistant bond
- Will not attack polystyrene
- Full strength achieved in 24 hours
- No ODS (ozone depleting substances)

### Application Tools:

- Hoses: M130
- Application Gun: M120
- Recommended Tip: UniJet® 9501

TDS / SDS

### Substrates:

Polystyrene   Foam   Insulation   Fabric

### Properties:

# P323

## Fast Dry Pressure Sensitive Adhesive

Tensorgrip® P323 is a high solids, very fast drying PSA with good temperature resistance.

### Advantages:

- Aggressive; adheres to nearly any surface
- Repositionable
- Excellent high coverage
- Thick web spray
- 80% of final strength achieved immediately
- Full strength achieved in 24 hours
- Fast dry, high tack, and long open time
- Excellent green strength
- No ODS (Ozone Depleting Substances)
- OTC compliant

# OUR INDUSTRIAL ADHESIVE RANGE

Aspiring to be your "Most Valued Supplier"

# P329

## CA Compliant Pressure Sensitive Adhesive

Tensorgrip® P329 is a very aggressive, high build pressure sensitive adhesive designed to bond porous substrates while maintaining a high level of tack. Low VOC California Compliant SCAQMD 1168 Rule. Useful for bonding for Foam, Insulation, Metals and Wood.

### Advantages

- Very Aggressive, High Tack Adhesive
- High Build Web Spray
- HAPS Free
- High Strength, long-term bond
- 100% Adhesive Transfer to Substrate
- Fully Portable
- No ODS (ozone depleting substances)
- California Compliant Low VOC SCAQMD Rule 1168

### Application Tools:

- Hoses: M130
- Application Gun: M120
- Recommended Tip: UniJet® 110015

### Properties:

### Available Sizes:

### Available Colors:

# P331

## Edge Stiffener

Tensorgrip® P331 is a fast-drying edge stiffener for fiberglass board, with the speed of application and convenience of a canister delivery system.

### Advantages:

- Fast drying solvent system allows faster processing times and quicker secondary finishing
- Compatible with most adhesives used for wrapping panels
- Non-flammable
- VOC free
- No moisture to create mold or mildew

### Application Tools:

- Hoses: M180
- Application Gun: M120
- Recommended Tip: UniJet® 400050

## P390

### Non-Flam Non-Mecl Contact Adhesive

Tensorgrip® P390 Canister is a completely non flammable, non methylene chloride canister adhesive. Multi purpose with excellent bond to unsanded melamine, difficult to bond foams such as memory foam and polyurethane foam and many other substrates.

#### Advantages:

- Fast drying solvent system allows faster processing times and quicker secondary finishing
- Compatible with most adhesives used for wrapping panels
- Non-flammable
- Lowest VOC content of Non-Flam, Non-Methylene Chloride Adhesives

#### Application Tools:

- Hoses: M180
- Application Gun: M120
- Recommended Tips: UniJet® 11001B or M201

## P415

### Water Based Pressure Sensitive Adhesive

Tensorgrip® P415 is a high solids, acrylic based, pressure-sensitive adhesive with excellent temperature resistance with 2x coverage of standard pressure sensitive adhesive canisters.

#### Advantages:

- 100% Non Flammable
- Repositionable bond
- Excellent High Coverage
- VOC free
- Fast Dry, High Tack, Long Open Time

#### Application Tools:

- Hoses: M130
- Application Gun: M120

# P607

## Fire Rated CA Compliant Contact Adhesive

Tensorgrip® P607 is a Class A Fire Rated multi-purpose contact adhesive that effectively bonds a vast range of substrates while maintaining compliance with stringent California VOC requirements (SCAQMD Rule 1168). Formulated with CO-REZ Technology, which is an exceptional formulation incorporating a highly engineered resin and gas matrix. The result: Greater Coverage from Less Canister Weight. Fire rated testing includes ASTM E1354 test method for heat and visible smoke release complying with FMVSS 302 Standards

### Advantages:

- Class A Fire Rated
- Good heat resistance
- High Strength, long term bond
- Low VOC California Compliant
- Versatile Adhesive that bonds to nearly any surface
- Fully Portable System
- 100% Adhesive Transfer to substrate

### Application Tools:

- Hoses: M30
- Application Gun: M120
- Recommended Tip: UniJet® 6501B

### Properties:

### Available Sizes:

### Available Colors:

# P809

## CA Compliant Crosslinking Contact Adhesive

Tensorgrip® P809 is a revolutionary high performance, plasticizer resistant adhesive, specially formulated for bonding vinyl, rubber and plastics. Works well on decorative surfaces subject to plasticizer migration as well as many other surfaces including standard laminate and aluminum. Like epoxy, chemically reacts to create permanent bond.

### Advantages:

- Bonds vinyl permanently
- Excellent plasticizer resistance
- Strong, permanent bonds
- High output for fast application
- Resists weathering, water, fuel, oil and many other plasticizers
- Bonds to damp surfaces (moisture cure)
- Semi-repositionable

### Application Tools:

- Hoses: M180
- Application Gun: M120
- Recommended Tip: UniJet® 11001B

TDS / SDS

### Substrates:

### Properties:

# CLEANERS

# S101

## Citrus Adhesive Cleaner

Tensorgrip® S101 is the king of cleaners. Unlike most solvent cleaners, S101 is safe for most surfaces, yet powerful enough to remove adhesives and other tough substances. Tensorgrip® S101 is packaged in aerosol cans and pressurized canisters to eliminate the mess and worry of liquid solvents and for ease of purging canister adhesive application equipment (guns and hoses).

### Advantages:

- Cleans hoses, spray guns and other adhesive equipment
- Exceptional cleaning/degreasing power
- Pleasant citrus scent
- Safer than most comparable cleaners
- Compatible with most plastics

### Application Tools:

- Hoses: M120
- Application Gun: M130
- Recommended Tip: M201

# S800

## Tip Cleaner for Cross-Linking Contact Equipment

Tensorgrip® S800 is a powerful, unique tip cleaner developed specifically for care of gun tips used with Tensorgrip® cross-linking contact adhesives. This cleaner effortlessly eliminates adhesive blockage from gun tips without creating an unnecessary mess or affecting moisture cure adhesives negatively.

### Advantages:

- Safe & Effective
- Fast cleaning of tips
- Assists in smooth, uninterrupted spray of Tensorgrip® cross-linking contact adhesives
- No mess
- No HAPs

### Properties:

Mist Spray

### Available Sizes:

Aerosol 650ML (22 FL OZ)

## TOOLS

# MI20

### Adjustable Spray Gun

Heavy duty, built to last through steady industrial use. This is your go-to spray gun, compatible with all of our spray tips and suitable for every industry.

# MI25

### Wand Spray Gun

The fastest, easiest application of canister spray adhesives ever! Extend your reach, save your back and cut down on application time with a wide fan web spray. Suitable for most web spray products. Best for applications where bending over or reaching is required.

## OUR INDUSTRIAL ADHESIVE RANGE

Aspiring to be your "Most Valued Supplier"

# MI30

## Flexible Rubber Hose

The standard rubber coated hose is designed for use in heavy industrial situations. Maintains excellent flexibility and durability even through rigorous daily use.

### Available Lengths:

- 12'
- 18'
- 25'

# MI80

## Quin White Flexible Hose

The M180, white flexible hose, is designed specifically for our exclusive range of Zero-Flam technology products.

### Available Lengths:

- 8'
- 12'
- 18'
- 25'

# M300

## Two Way Splitter

Now you can use two spray guns off of one canister! For use with 108 liter and 216 liter canisters.

## OUR INDUSTRIAL ADHESIVE RANGE

*Aspiring to be your "Most Valued Supplier"*

# M510-22

### Canister Trolley System

The ideal solution for shop and large field jobs where portability is of the essence. The trolley allows a seamless spray application and easy transport of the 22L canister.

#### Advantages:

- Easy to use
- No more tangled hoses
- No more lugging canisters around
- No more struggling to hold canister in one hand while spraying with the other
- Powder-coated surface; makes it tough and stain-resistant
