

Threaded Inserts for Plastics & Acrylic

KEEP-NUT™ Press-in Threaded Insert

- Stainless press-in threaded insert
- Process: pre-drill and punch
- Features: easy installation, high strength, hidden assembly

Thread Sizes	10-24, M5 & more
Insert OD (in)	0.472"
Hole Diameter (in)	0.472"
Depth (in)	0.255"
Diameter Tolerance	0.469 - 0.472"
Closest Drill Bit Size	11.8mm
Closest Drill Bit Size (Alternate)	15/32"

851 Heat-set Threaded Insert

- Brass heat-set threaded insert
- Process: press-in with soldering iron/ress
- Features: high strength, wear resistance, withstands high temperatures

Thread Sizes	10-24, M5
Insert OD (in)	0.280"
Hole Diameter (in)	0.25"
Depth (in)	0.22"
Diameter Tolerance	0.252 - 0.264"
Closest Drill Bit Size	1/4"
Closest Drill Bit Size (Alternate)	6.5mm

307 Self-tapping Threaded Insert

- Self-tapping design
- Installation process: pre-drill hole, insert with self-tapping tool, drive/turn until seated
- Features: strong threads in weak materials, easy installation

Thread Sizes	10-24, M5
Insert OD (in)	0.315"
Hole Diameter (in)	0.295"
Depth (in)	0.354"
Diameter Tolerance	0.295 - 0.299"
Closest Drill Bit Size	19/64"
Closest Drill Bit Size (Alternate)	7.5mm
