

TOUCHSTONE™

CLARION SF VINYL ESTER ADHESIVE

AVAILABLE IN THREE VISCOSITIES

#1—FLOWING

#5—KNIFE GRADE

#9—HIGH VISCOSITY

ABOUT CLARION SF

Touchstone Clarion SF is a versatile, two-part vinyl ester adhesive formulated to deliver high-performance adhesion with a smooth, easy-to-use consistency. It is a styrene-free formula, that applies and cures with excellent clarity.

WHY CHOOSE STYRENE-FREE?

Styrene-based adhesives are commonly used in a variety of industries. According to ERA Environmental, styrene-based products carry a variety of health risks, environmental hazards, and regulatory concerns. [Read The Blog: www.era-environmental.com/blog/styrene-adhesives-white-paper](http://www.era-environmental.com/blog/styrene-adhesives-white-paper)
