Our Story

At Chemical Concepts we're experts on bonding and assembly products that support the marine industry – whether that's mechanical, chemical or a combination. We have a diversified supply chain, and we can provide solutions for almost any marine manufacturing project. If you don't see a product you normally use, in most cases we have a direct 1-to-1 match or a range of comparable products that offer similar results. Either way, we can leverage our relationships and expertise to secure your supply and keep your projects moving forward to meet your deadlines and achieve your goals.

Our team embodies service excellence daily, bringing decades of experience, end-to-end support, and extra-mile dedication to give you the solution you need.
